

HEALTH PLAN COVERAGE & MIGRAINE DISEASE

PERCEPTION vs. REALITY

PERCEPTION ▼

Migraine patients who have insurance can access the treatment they need.

REALITY ▼

Even covered patients often face barriers. HR professionals report barriers such as:

34%  Prior authorization

34%  Step therapy

49%  Quantity limits

Meanwhile, 64% of HR professionals say employees with migraine disease work during attacks.

PERCEPTION ▼

HR benefit managers simply administer health benefits for employees.

REALITY ▼

HR benefit managers can make treatment accessible by choosing comprehensive coverage plans for migraine disease. HR professionals report they would:

49%  Assist an employee in seeking an insurance appeal

45%  Assist an employee in seeking an exception from an insurance utilization management barrier
